IMMENSE WORK AHEAD FOR WOMEN

Mr. Henry P. Davison, chairman of the War Council of the Red Cross, has said that if the government should offer him a check for \$500,000,000.00 or a check for only \$100,000,000.00 and the work of the women of the country, he would not even look at the larger check! He knew what he was saying, too, as the magnificent response of the women of America has shown. Never before did woman shine as now; never before did she so show that but for her aid the worst would have occurred. And the end is

The calls are endless. Refugees have no underclothes, no stockings, little to protect themselves against the coming winter winds. The women of America are going to furnish these clothes, these stockings, are going to see to it that no French, no Belgian, no Italian child, or mother, shivers into a bitter grave before next spring.

The Surgeon General of the United States is asking for thousands of sweaters, for hundreds of thousands of socks, and for hundreds of thousands of articles of all kinds! English calls ring over the water-and the American women remember what the English fleet did for us-they do not forget! French women, whose souls are bowed with grief, are listening for those sweetest of all sounds, the click of needles that mean warmth, and the snipping of scissors that mean clothes for the children.

No babies in the history of the world have been better guarded than the American. Now all the skill, all the tenderness, all the love of American mothers finds limitless opportunities to help babies who but for them would have nothing at all!

New England alone has three million dollars worth of material waiting to be made up and sent! Now is the time for a hearty pull together, to show the world that we really under-

War Times

Can't touch the man with the "saving habit."

We don't mean the miser—he is one of the worst sufferers in the spirit.

The sensible, prudent man who lives within his income and regularly lays by a little of his earnings, can defy war times.

The best way to get the "saving habit" is to start a savings account with the Island Pond National Bank.

You'll take pride in watching it grow to proportions where it will work for you.

Yours for mutual prosperity.
